

# ***BOSTON LOGAN RNAV STUDY PUBLIC INFORMATION SESSION***

Massport will host a virtual public information session regarding the Boston Logan RNAV Study and current Block 2 recommendations.

The meeting will be streamed in English and Spanish.

The Study was in response to community concerns related to the FAA's implementation of NextGen procedures including RNAV. The Study was a collaborative effort involving Massport and the FAA with experts from MIT conducting the technical analysis. The Massport Community Advisory Committee (Massport CAC) members provided ideas and feedback to the Study. The MIT team will lead the presentation followed by an opportunity for the public to ask questions or comment. Representatives from Massport and the FAA will also be available to answer questions.

**When: September 23, 2021**

**5:30pm - 7:30pm**

**This will be a virtual meeting.**
